

Homework 2.1 Solution

Download **grades.json** file and type the command in your shell or command prompt

```
mongoimport /d students /c grades grades.json
```

After importing the student database and grades collection enter the commands in your mongodb shell to find out the answer of the homework.

```
> use students  
> db.grades.find({ score:{$gte:65} }).sort({ score:1 }).limit(1)
```
